

Aiden J. Johnson

Northfield, MN • (507) 398-1334 • aidenjohnson728@gmail.com • theaidenjohnson.com

EDUCATION

Carleton College, Northfield, MN

June 2027

Bachelor of Arts, major: Computer Science, minors: Statistics, Digital Arts, Art History, GPA: 3.84/4.00

- Dean's List (2023-2024): awarded to students in the top 10 percent of the class
- College Sports Communicators Academic All-District Award: 2 time recipient

SKILLS

- **Languages:** Python, Java, Kotlin, JavaScript, HTML/CSS, SQL, R, C, LaTeX
- **Frameworks & Development:** React.js, Electron, Postgres
- **Data & Visualization:** Pandas, Matplotlib, Statistical Analysis, A/B Testing
- **Design & Human Factors:** UI/UX Design, Human-Centered Design, Figma
- **Tools & Platforms:** Git/GitHub, Unix/Vim, Adobe Creative Suite, ArcGIS, WordPress

EXPERIENCE & PROJECTS:

Senior Digital Humanities Associate, **Carleton College**, Northfield, MN

September 2025-present

- Integrated digital methods and tools like ArcGIS, Omeka, and HTML/CSS into humanities education
- Collaborated with faculty to design and implement tech-supported course materials used by students

User Experience Design and AI Engineer Intern, **Mayo Clinic**, Rochester, MN

June 2026-August 2026

- Redesigned and restructured the unit website using human-centered design and iterative stakeholder feedback to improve usability and communication of patient-centered research
- Benchmarked and optimized AI speaker-diarization pipelines for patient encounters using Python, evaluating model performance through Diarization Error Rate (DER) to support machine-learning research
- Collaborated with Mayo researchers to design and evaluate software supporting patient-practitioner encounter research

Creator and Developer, **EnIAC**, (EnIAC)

June 2026-August 2026

- Developed EnIAC, a local-first React/Electron qualitative coding platform now used by Mayo Clinic researchers to securely analyze and collaboratively code sensitive patient-practitioner encounter data
- Presented EnIAC at the Midwest Endocrine Society Conference, earning Runner-Up for Poster Presentation for its application in assessing shared decision-making in endocrine care

Software Design Research Intern, **Carleton College**, Northfield, MN

March 2025-August 2025

- Designed and conducted A/B tests evaluating a software-design learning intervention using non-parametric statistical methods
- Applied human factors and program analysis techniques to understand the processes underlying a software design educational intervention
- Visualized findings with Pandas, Matplotlib, and PyWaffle to communicate results to diverse audiences
- Co-authored research accepted and presented at SIGCSE Technical Symposium

CEO and Creative Director, **Haus of Frog**, (hausoffrog.com)

June 2020-present

- Founded and operated an independent e-commerce micro-brand generating hundreds of product sales and several thousand dollars in revenue
- Designed and produced marketable products (T-shirts, tote bags, slides), driving customer engagement
- Converted social media reach into sales via organic marketing campaigns reaching thousands of impressions

STUDENT INVOLVEMENT

NCAA Swimming and Diving, Captain, **Carleton College**

August 2023-present

- Earned All-Conference Honorable Mention at the Minnesota Intercollegiate Athletic Conference (MIAC) Championship
- Demonstrated rigorous time management by balancing academics and athletics

Carleton GitTogether Outreach Coordinator, **Carleton College**

September 2025-present

- Led outreach for Carleton's inaugural hackathon, attracting 26 participants, most of whom were first-time hackathon attendees, collaborating with Carleton's CS department to create a community-focused event

Cowprint Treasurer and Creative Director, **Carleton College**

June 2024-present

- Led design and editorial direction for *Cowprint*, Carleton's oldest arts & culture magazine, managing publishing timelines and creative production while balancing athletics and academics
- Coordinated funding and budget allocation, securing several thousand dollars for annual operations
